Academy Hours

8:00 a.m. – 5:00 p.m., Monday – Friday. Classes begin at 9:00 a.m. on the first day of the course unless otherwise noted in the course description.

Where will classes be held?

All classes are held at the Highway Patrol Academy, 740 East 17th Avenue, Columbus, Ohio, unless otherwise noted in the course description.

Who is eligible to enroll?

Enrollment is open to commissioned peace officers who are sponsored by their Agency. We reserve the right to limit the number of students from a single department to ensure equitable representation of officers in a class. No individual enrollment is permitted.

Where will I be staying?

Officers enrolled in the Basic Course live at the Academy during training. They are restricted to the Academy during the week. For students enrolled in all other courses, rooms may be available. No dorm accommodations will be confirmed prior to two weeks before the start of the class. Please contact the Academy Scheduler for confirmation at (614) 387-6078. Hotels close to the Academy are listed at the end of the catalog.

Is there a dress code?

Formal dress is not required; however, appropriate casual business attire is required. Students are not permitted to wear jeans, shorts, sandals, or tee shirts. Docker-type pants and a collared shirt are the minimum acceptable appearance.

What should I bring for “down time?”

A variety of recreational facilities are available to officers in training, including an indoor training tank, fitness room, and gymnasium. Students should bring appropriate recreational attire. Computer labs are available and a limited wifi connection is available for personal laptops.

TECHNICAL TRAFFIC CRASH INVESTIGATION*

This 10-day course is an advanced program in the investigation and reconstruction of traffic crashes. It combines a mixture of classroom and simulated practical experience. This is accomplished by updating the student's past knowledge and providing exposure to the most recent innovations in the field.

The objective of the course is to expand the knowledge and proficiency of the investigator and to provide for a more detailed follow-up investigation on selected traffic crashes.

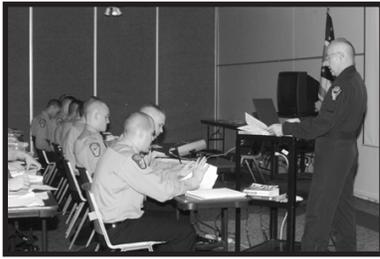

Included within the course are topics such as mapping and measurements, scale diagrams, mathematical computations, lamp analysis, skid mark exercises, and collision forces. Much of the time spent by each officer will be on actual project assignments covering a variety of situations. The ability to estimate vehicle speed by the use of skid marks, yaw marks, and flip and vault evidence will be covered.

The course is designed to develop within the investigator a better understanding of the more complex aspects of traffic crash investigation. This will not only sharpen skills as an on-scene investigator but expand ability in courtroom testimony, in reconstruction or follow-up investigation, and as a departmental trainer.

Equipment needed: Hand calculator with a square root function.

POLICE INSTRUCTOR

Assessing specific training needs and developing the correct objectives is essential to an effective transfer of learning. To be an effective instructor, you must understand the three-fold role of authority, leader and visionary. Modern theories of adult learning and how best to apply these theories are vital to keep interest in the classroom. Throughout the two week program, we will discuss how you can be held accountable as the trainer of the people you have trained through vicarious liability. At the end of the course, the student will be qualified to apply for OPOTC certification.

The topics covered in this course include a police instructor's role, concepts in adult learning, developing performance objectives and training goals, constructing an effective lesson plan, use of training aids, communicating in the training environment, facilitation methods and skills, measuring learning, creativity and motivation in training, civil liability in law enforcement training, impromptu presentations and 15, 30, and 45 minute presentations.

Equipment needed: In order to complete the course, there will be two 5-minute, one 15 minute, and one 50 minute presentation. For Week 1, please bring any materials necessary to demonstrate the one of your five minute presentations.

Equipment provided: PowerPoint program
OPOTC certification paperwork
Computer lab
Jump drive

BASIC PEACE OFFICER TRAINING

The Basic Peace Officer training course meets all the required standards for basic law enforcement training in Ohio. The students are provided with quality instruction in all subject matters prescribed by the Ohio Peace Officer Training Council. Additional advanced training is provided in several subject areas critical to the successful job performance of the modern law enforcement officer.

A special emphasis is placed on human relations training and on developing the officer's most frequently used skills. Experts in the many fields of criminal justice are brought to the Academy to present qualified instruction in their critical subject areas. Every officer is given individualized instruction in police car driving, firearms proficiency and safety, self-defense tactics, and physical conditioning.

Tentative reservations by letter may be submitted 90 days before the start of a class. *The completed application, which includes the physical, must be submitted 30 days before the start of a class to secure the position.* The class size will be limited to 40-60 students. A fitness assessment is required for entry and must be completed between 30 days and 5 days prior to the start of the class.** Please note a form will be provided in the enrollment packet addressing this requirement.

All students must complete and provide to the Academy on Day One the SF 102 UNV (Web Check Fingerprints) Form. This form substantiates the uploading of the fingerprints to meet the Web Check requirements.

At the time of enrollment, the student must be a duly sworn peace officer and present an oath of office signed by the authorizing agency head. Each student must bring a service handgun and 2000 rounds of encapsulated (clean fire) ammunition for practice. An additional 300 rounds of copper-jacketed service ammunition will be required for peace officer qualification.

Course	Dates of Course	Class Size	Length	Meals Provided	Lodging Provided	Cost
Basic 123	3/4/09 - 7/10/09	40-60	19 weeks	Yes	Yes	\$2,500
Basic 124	8/19/09 - 12/23/09	40-60	19 weeks	Yes	Yes	\$2,500

**** On the first day of the Basic Peace Officer Training, all candidates will be tested for minimum acceptance standards. Those that fail to meet these percentages will be summarily dismissed.**

FIREARMS PROFICIENCY

This three-day course is provided to increase the proficiency skills of the officer. The focus is on handgun and shotgun fundamentals and gradually develops into live fire shoot and move exercises. The objective of the program is to improve basic combat shooting skills including reloads, immediate action drills, low light shooting, and multiple threat situations. This course will benefit those shooters who have difficulty with their firearms proficiency and will provide intermediate skilled shooters with a stronger shooting foundation.

Please note:

The training is held at: Corrections Training Academy
11781 State Route 762
Orient, OH 43146.

Please report to Orient on the first day of the course at 9:00 am.

ADVANCED DETECTION, APPREHENSION, & PROSECUTION OF PERSONS UNDER THE INFLUENCE OF ALCOHOL (ADAP)

This five-day course is designed to enhance the skills required to detect, apprehend, and prosecute persons operating a vehicle while under the influence of alcohol and/or drugs. The course includes classroom instruction and controlled exercises structured to give the officer practical experience in the evaluation of the adverse effects of alcohol/drugs on driving ability. In these exercises, the student is required to observe persons who have consumed controlled quantities of alcohol. Each exercise allows the student to use the most up-to-date sobriety testing to evaluate the condition of the drinker.

Classroom subjects include a detailed study of the elements of Ohio's OVI law, the drunk driver problem, enforcement decisions, chemical testing rules and regulations, arrest procedures, operating a video camera in the patrol car to apprehend and prosecute impaired drivers, and courtroom testimony. Students are trained and certified in both the theory and practice of the standardized improved sobriety test battery, consisting of the horizontal gaze nystagmus test, walk-and-turn test, and one-leg stand test, as developed and recommended by the National Highway Traffic Safety Administration.

This course is limited to 30 students per class.
