## REGIONAL TRAINING UNIT

The Regional Training Unit is designed to provide the latest advanced training to all law enforcement agencies on a regional basis. It is identified as Regional Educational General In-Service (REGIS). Training is continually being developed and posted to REGIS as a result of staying current with trends within law enforcement. It offers the opportunity for law enforcement partners to attend much needed training in their regional area thus reducing expenses. Please visit the homepage of Ohio State Highway Patrol website at [www.statepatrol.ohio.gov](http://www.statepatrol.ohio.gov) and locate the training link for additional information regarding the Regional Training Unit and the REGIS training opportunities.

## POLICE INSTRUCTOR

Assessing specific training needs and developing the correct objectives are essential to an effective transfer of learning. To be an effective instructor, you must understand the three-fold role of authority, leader and visionary. Modern theories of adult learning and how to best apply these theories are vital to keeping interest in the classroom. Throughout the two week program, we will discuss how you can be held accountable as the trainer of the people you have trained through vicarious liability. At the end of the course, the student will be qualified to apply for OPOTC certification.

The topics covered in this course include a police instructor's role, concepts in adult learning, developing performance objectives and training goals, constructing an effective lesson plan, use of training aids, communicating in the training environment, student centered learning, measuring learning, creativity and motivation in training, civil liability in law enforcement training, impromptu presentations and 15, 30, and 50 minute presentations.

*Equipment needed:* In order to complete the course, there will be one 15 minute, one 30 minute, and one 50 minute presentation. For Week 1, please bring any materials necessary to demonstrate your fifteen minute presentation.  
\*Flash Drive  
\*Personal laptops welcomed

*Equipment provided:* PowerPoint program  
OPOTC certification paperwork  
Computer lab

## BASIC PEACE OFFICER TRAINING

The Basic Peace Officer training course meets all the required standards for basic law enforcement training in Ohio. The students are provided with quality instruction in all subject matters prescribed by the Ohio Peace Officer Training Council. Additional advanced training is provided in several subject areas critical to the successful job performance of the modern law enforcement officer.

A special emphasis is placed on human relations training and on developing the officer's most frequently used skills. Experts in the many fields of criminal justice are brought to the Academy to present qualified instruction in their critical subject areas. Every officer is given individualized instruction in police car driving, firearms proficiency and safety, self-defense tactics, and physical conditioning.

Tentative reservations by letter may be submitted 90 days before the start of a class. ***The completed application, which includes the physical, must be submitted 30 days before the start of a class to secure the position.*** The class size will be limited to 40 - 60 students. A fitness assessment is required for entry and must be completed between 30 days and 5 days prior to the start of the class.\*\* Please note, a form will be provided in the enrollment packet addressing this requirement.

At the time of enrollment, the student must be a duly sworn peace officer and present an oath of office signed by the authorizing agency head. Each student must bring a service handgun and 2000 rounds of encapsulated (clean fire) ammunition for practice. An additional 300 rounds of copper-jacketed service ammunition will be required for peace officer qualification.

## OVI DETECTION & STANDARDIZED FIELD SOBRIETY TESTING

This five day course is designed to enhance the skills required to detect, apprehend, and prosecute persons operating a vehicle while under the influence of alcohol and/or drugs. The course includes classroom instruction and controlled exercises structured to give the officer practical experience in the evaluation of the adverse effects of alcohol/drugs on driving ability. In these exercises, the student is required to observe persons who have consumed controlled quantities of alcohol. Each exercise allows the student to use the most up-to-date sobriety testing to evaluate the condition of the drinker.

Classroom subjects include a detailed study of the elements of Ohio's OVI law, the drunk driver problem, enforcement decisions, chemical testing rules and regulations, arrest procedures, operating a video camera in the patrol car to apprehend and prosecute impaired drivers, and courtroom testimony. Students are trained and certified in both the theory and practice of the standardized improved sobriety test battery, consisting of the horizontal gaze nystagmus test, walk-and-turn test, and one-leg stand test, as developed and recommended by the National Highway Traffic Safety Administration.

## JUDGES AND PROSECUTORS SEMINARS

### Advanced Detection, Apprehension, & Prosecution of Persons Under the Influence of Alcohol (OVI)

The purpose of this course is to familiarize and update full-time judges and prosecutors throughout the State of Ohio with the current trends and techniques utilized by professional law enforcement officers in the investigation and arrest of OVI offenders. Appellate court judges from around the State of Ohio will be guest instructors for this course as well as certified OVI detection and SFST Instructors along with the most current version of the SFST Manuals issued by NHTSA. The number of CLE hours received will be determined by the Ohio Supreme Court prior to the course commencing.

Course Number and Dates	Class Size	Length	Meals Provided	Lodging Provided	Cost
12/9/13	60	1 day	Yes	No	None to Agency; NHTSA funded

### Electronic Speed Measuring Devices

The purpose of this class is to familiarize full-time judges and prosecutors throughout the State of Ohio with the theory, technical, and operational aspects of Electronic Speed Measuring Devices (ESMD) used within the state of Ohio. Upon completion of this course, the attendees will have a good understanding of training and operational requirements required for effective and reliable ESMD operation by professional law enforcement officers. State approved ESMD instructors are used to teach this seven hour block of instruction. They have used the RADARs and LIDARs and have experience in repairing them. A class textbook and PowerPoint handouts are provided for note taking and future reference. This portion of the training is administered by Judge Teresa L. Liston.

Part of the course is dedicated to practical judicial information including admissibility, judicial notice and testimony pertaining to Electronic Speed Measuring Devices.

## FIREARMS FUNDAMENTALS

This three day course is designed to improve the fundamentals of marksmanship. Students will learn techniques covering firearms safety and tactical shooting skills. They will learn fundamental principles that will increase the students speed, accuracy, and confidence with the weapon. This course begins with understanding the basic function of the officer's firearm. Topics covered will include stance, grip, sight alignment, and trigger management, intending to increase the proficiency skills of the officer. The focus then becomes shooting skills, including reloads, immediate action drills, movement, and multiple threat situations.

*Equipment:* Service Weapon  
 1000 Rounds of Handgun Ammo  
 Protective Body Armor  
 Department Issued Shotgun  
 100 Rounds Shotgun Ammunition (Buckshot or Birdshot)  
 50 Rifled Slugs

Course Number and Dates	Class Size	Length	Meals Provided	Lodging Provided	Cost
#5 7/10/13 – 7/12/13	20	3 days	Yes	When Available	\$100
#6 10/16/13 – 10/18/13	20	3 days	Yes	When Available	\$100

## BASIC TRAFFIC CRASH INVESTIGATION

This five day course will provide the investigator with the necessary tools and skills to conduct a thorough crash investigation and properly document the physical evidence to prepare for testimony.

This course will introduce the methodology for proper measuring techniques, questioning drivers and witnesses as well as skidmark identification and analysis. The student will also be introduced to calculating speed from physical evidence to include adjusting drag factors. Controlled experiments will be conducted during the course in order for the student to apply these concepts to actual field situations.

Students are required to bring a hand calculator with a square root function.

Course Number and Dates	Class Size	Length	Meals Provided	Lodging Provided	Cost
#193 3/25/13 – 3/29/13	30	5 Days	Yes	When Available	None to Agency; NHTSA funded

#195 10/21/13 – 10/25/13	30	5 Days	Yes	When Available	None to Agency; NHTSA funded

## INTERMEDIATE TRAFFIC CRASH INVESTIGATION

This course is a continuation of the Basic Traffic Crash Investigation. Emphasis will be placed on proper documentation of physical evidence and questioning drivers and witnesses. Additional topics include damage analysis, scale diagramming, and speed determination from physical evidence. Additional controlled experiments will be conducted to reinforce course objectives.

*Prerequisite:* Basic Traffic Crash Investigation or its equivalent  
(Minimum 40 hours)

*Equipment:* Scientific calculator  
Drafting compass  
Drafting pencils and pens  
Non-marring eraser

## ADVANCED FIREARMS, ARREST, AND SELF-DEFENSE TACTICS (ADVANCED FAST)

This five day course deals specifically with officer safety and survival and is a continuation of the basic FAST program. This course includes more practical training in the areas of subject control tactics, close-quarter combat shooting, advanced shooting techniques, and a firearms field trip for live-fire applications of the techniques taught. Advanced FAST is more advanced than the basic FAST programs. When submitting your application to attend this class, please indicate which Ohio State Patrol FAST program you attended or attach a photocopy of your certificate.

*Prerequisite:* **It is mandatory that the student have attended and completed the basic FAST program before attending this course.**

*Equipment needed:*

Service Weapon	500 Rounds/Clean Fire Ammo
Protective Body Armor	Professional Casual Clothing
Scuff Clothing (B.D.U.s) (3 pr)	Gym Clothing
Rain Gear	Long Sleeve Sweatshirt
Flashlight	

*Equipment provided:*

#15 9/23/13 – 9/27/13	25	5 days	Yes	When Available	\$125

## FIREARMS, ARREST, AND SELF-DEFENSE TACTICS (FAST)

This five day course deals specifically with officer safety and survival. This course is designed to accommodate both men and women. In addition, a program for women only is offered which deals with specific issues that female officers face relative to their daily operations. Please note females can be enrolled in any of the training courses below.

This course includes topics such as deadly errors, active shooter training, critical incident survival, firearms field trip, subject control tactics, cover and concealment, officer survival, psyche of survival, captured officer survival, react-fire-win, hostile environment reaction, and simunitions scenarios.

### Equipment needed:

Service Weapon	300 Rounds/Clean Fire Ammo
Protective Body Armor	Professional Casual Clothing
Scuff Clothing (B.D.U.s) (3 pr)	Gym Clothing
Rain Gear	Long Sleeve Sweatshirt
Flashlight

#21 8/26/13 – 8/30/13 <i>Females Only</i>	30	5 days	Yes	When Available	\$125

## TECHNICAL TRAFFIC CRASH INVESTIGATION

This 10-day course is designed to expand the student's knowledge base previously developed in the Intermediate Crash Investigation Course. This course will further delve into the topics of speed determination from flips, vaults, and falls. It will further explore the areas of kinetic energy and speed determination from momentum analyses. The student will also learn to conduct lamp examinations and tire analyses. In addition, determining of the principle direction of force will be used to assist the investigator's understanding of the forces involved during the impact phase of a collision.

### Prerequisite:

The student must have successfully completed the Intermediate Crash Investigation Course or its equivalent. (Minimum 40 hours)

### Equipment needed:

Scientific calculator (sine, cosine and tangent functions required)  
Drafting compass  
Drafting pens and pencil (.5 to .7 lead)  
Non-marring eraser

## COMMERCIAL MOTOR VEHICLE (CV S.A.F.E.)

During this three day course, the field officer will become familiar with Commercial Vehicle Enforcement. The course provides instruction on commercial driver's license (CDL), commercial vehicle registration, fuel tax, size and weight enforcement, and oversize permit. The course will provide general vehicle familiarization by classroom instruction and actual commercial vehicle demonstration. Hazardous materials recognition and familiarization will also be discussed.

#21 3/13/13 – 3/15/13	40	3 Days	Yes	When Available	None

## ELECTRONIC SPEED MEASURING DEVICES (ESMD) INSTRUCTOR CERTIFICATION

This five day course is designed to provide the student with the skills, knowledge, and abilities to instruct and certify officers on the proper use of police radar and laser.

This course includes topics such as the role of the police ESMD instructor, review and update of theory and technical aspects of electronic speed measuring devices, developing policy and procedure workshop, PowerPoint; facilitation methods and skills, instructor presentations, practical field exercises and examination, civil liability in teaching, and current trends in ESMD.

*Prerequisites:* Completion of the Ohio State Highway Patrol Electronic Speed Measuring Devices course or its equivalent (Minimum 40 hours).

*Equipment needed:* Departmental ESMD policy, if available

*Equipment provided:* Radars, lasers, and vehicles for practical classes.  
ESMD Instructor's Manual

#21 11/18/13 – 11/22/13	30	5 days	Yes	When Available	None to Agency; NHTSA funded

## ELECTRONIC SPEED MEASURING DEVICES (ESMD)

The use of radar and laser speed measuring devices and the training of police officers who use radar and lasers have come under scrutiny by the public, courts and the National Highway Traffic Safety Administration. Radar and lasers are reliable and accurate speed measuring devices when used by properly trained, experienced operators. This course surpasses the training criteria established by NHTSA and provides the training and practical experience required to ensure the proper operation of electronic speed measuring devices.

Topics covered in this course include introduction to radar/laser, theory and technical aspects of radar, theory and technical aspects of laser, target identification, ESMD case law and pre-trial preparation, 16 hours of practical exercises, and moot court.

*Equipment provided:* Radars, lasers, and vehicles for practical classes.
